HOW AN INCREDIBLE SYSTEM PROVIDES JOSIE A BUSINESS SHE LOVES AND TIME FOR THE THINGS THAT MATTER MOST! READ JOSIE'S INSPIRING STORY...

After a successful career in marketing and at a pivotal point in her life, Josie contemplated starting her own business, driven by a desire for more flexibility and freedom.

Discover Josie's story...

Josie's introduction to MyHome came when she utilised their services to prepare her own house for sale.

Impressed by the exceptional experience, she recognized a significant gap in the market for the premium service that MyHome provided.

Intrigued by the brand, turnkey operating system, and the potential to own a business that could deliver financial success without compromising her personal life, Josie approached MyHome to explore joining their team.

More time for the things that matter most...

Now a proud owner of a MyHome management franchise, Josie revels in her newfound freedom and flexibility, cherishing the opportunity to prioritise what matters most to her.

Instead of being tied to an office, Josie starts her days by briefing her teams over a coffee in a local café. She structures her daily tasks around her schedule, often finishing work by 4pm.

Josie has achieved the perfect balance between owning a thriving business and living the lifestyle she desires.

In her own words, "I really love my business. I have four vehicles, eight full-time staff, over 130 customers, and a waiting list. Most of the customers are people I know personally. It's just the right size that I want it to be."

The success of the MyHome franchise lies in its well-crafted system. Josie is able to consistently work a four-day week, allowing her to spend more time at her beach house.

Success really is in the system...

Another major advantage for Josie is the easy accessibility of all the necessary resources for running her business. Policies, procedures, manuals, training videos, and marketing materials are conveniently available online through the digital platform called MyHome Central.

By combining immaculately refined processes, scientific principles, and cutting-edge technology, MyHome offers a turnkey business opportunity with immense potential.

With a low-cost entry, advanced systems, centralised support, including call centres, and digital innovations such as MyHome Central and the MyHome App for mobile

and tablet operations, MyHome sets the benchmark for the industry.

Bringing new team members on board is a breeze, thanks to MyHome's comprehensive induction and training program.

As Josie puts it, "What really impressed me was the turnkey operating system that allowed me to hit the ground running. I can run my business from any location I choose."

Knowing that she can rely on the expertise and support of the MyHome head office, also known as the MyHome Hub, provides Josie with tremendous reassurance.
